

Acceptable Use Policy for Computer & Internet Use

Purpose: Access to the district network will enable you to access district information, explore online resources, and communicate with people in-district and throughout the world. These resources will be valuable tools in your duties and responsibilities as an employee in the Rialto Unified School District.

Risks: Although our district takes every precaution to keep you safe while using these resources, you should be warned that some material accessible via the Internet may contain items that are illegal, defamatory, inaccurate, or potentially offensive to some people. However, we believe that the benefits from access to the Internet, in the form of information resources and opportunities for collaboration, exceed any disadvantages. Ultimately, you are responsible for following District philosophy and acceptable use standards when using media, information, and communication resources.

DISTRICT INTERNET AND E-MAIL RULES

Employees are responsible for following generally accepted social standards for use of a publicly owned and operated communication tool. Examples of unethical, unacceptable use of District technology
